

There are many characters in Coil Town. This looks back at a few moments.

Bill knows Dave. This is not a Dave's Utopian vision but it is real. If it isn't, I will see you in the Funny Papers. David Brede first appeared in the Michigan Daily

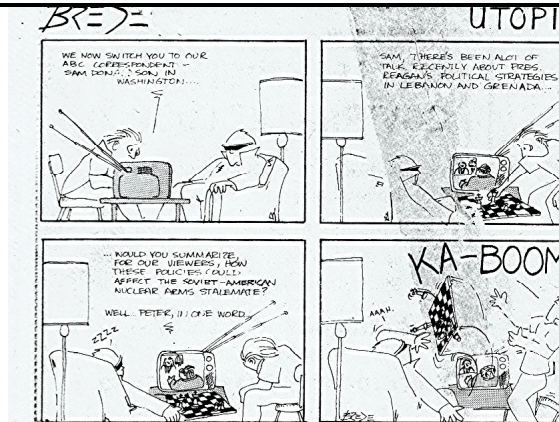

The strip Utopia is his. He handed me some sheets of paper with thought bubbles but didn't have time to do many. So years later we have these. But, Bill's the type of guy that things like that he will get too. Here they are David. The lettering will take time.
