Song Set: Concepts and foam, The Truth is Overrated, Suzy, Man Around, Lotion it up, 50% Cookie Solution, Financial Success

Concepts and Foam

Light on the concept vaginal foam, Everyone knows it kills seed. Light on the concept vaginal foam. You can call him on the phone. So you can dance and go to the beach and clear the concept in ocean foam. Light on the concept someone say something, I can feel it growing and growing. So you need

concepts and foam, if you want to call on the phone. Vaginal foam trust in me, she can wait she always has to pee. What's the point of concepts at all, you can just have a call. So you can slide into the water and crush the ice in beer foam. Light on the concept having a drink. What was it that you did think. She said she was light on the concept remember me, please excuse me i'm still free. Maybe will call on the telly, actually there is a penguin on it, a penguin on it a penguin on it. I can see now your light on my concept and your free, you can call me when you have foam, so we can dance and call the penguin...if the penguin remembers me.

The Truth is Overrated

The truth is overrated. Do you need something x-rated. He picks her up acts real smart. Tells her that his job is a really good start. What kind of job would you need. Does it blow to take heed. Is it the truth to tell is it just something to sell. To get a job one sets a truth. Is it rated true to me. Will just have to wait and see. The truth is overrated do you need something x-rated. Wanted some truth in my mouth so everything won't go south. Grant and Lee buffalo colder does the truth connect with soldier. Using the head big with facts may not lead to sex acts, The truth is overrated. Somebody needs something x-rated.

50% Cookie Solution

Can I give you a biscuit and 50 percent
of my love. You see lovers leaned math
in the bank and made loving withdrawals
and that did stank. Add it up free love
cost me trust so I'll go biscuit and half
my love the rests invested in my laugh.
When the biscuits gone I'll get another
and reduce my love until you slow down
eating me up without a simple query
What's up. Hearing biscuit the deal
seems real double 50 completes to one,
double biscuits leads to swine. You say
my body suggests one binary stu says
fun binary sue completos to zero you give
me all and I am none but have the

biscuits and the one. Half and Half looks like cream. All your love or she will scream. (shears version open yet)

Fiction 1

The yellow Kickert school bus parked out front of Churchill Elementary School that Friday in March awaiting the students anticipating a school field trip. Churchill School sprang up with the suburb Homewood in the late 1960's. The homes reflected modest middle class values with the homeowners responsible for lawn mowing and dutiful household maintenance such as painting. Churchill itself spanned about a quarter mile square with three wings in long hallway with classroom expanses filling the end of each hall. Wing one held the first grades while wing two and three held the third through sixth grades. Wing three had grown progressive in the early seventies with bean bag chairs and

available media for passing students. The multi-grade and open class lined the outer windowed walls along with some individual single grade classrooms. Illinois primary grades employ mostly woman to educate the young students. They lead the classes and on several occasions take the class on out of school field trips. The bus sat ominously outside on that cold but sunny early spring day in 1973. The field trip announced promised to educate the children on the county facilities.

No one, in Mrs. James fourth grade class knew which county facilities needed the youthful eye so the class did what they needed to do and attained permission slip signatures just the same.

Homewood sits south of Chicago and rests peacefully on the southern edge of Cook County. Bruce's dad lived the life

of a dentist. Larry lived with his businessman father. And Bill lived the son of a Metallurgical engineer. Amongst the thirty pupils in the class most showed aptitude for learning and city sophistication. Of course like any suburb on the prairie some field trips involved the ecosystem of the creek and the nature at the Sandberg nature center. Permission slips or not this ride would never be forgotten

To note kids often make up words. In this case the word “Prestidigious” is defined as envisioning a positive outcome and believing the logical steps after the fact. For example the prestidigious thought that after you win the lottery you will buy a new house shows your want for a house if you could have that lottery money. These

prestidigous thoughts can get quite detailed.

The era of creating a self from ordinary beings elevated the mere mortals to the point of abstraction. The man landed on the moon. The kids new a special time arrived. Newly built Apollo park stood about four blocks from Churchill school. The kids play baseball and soccer there still. The arced swing sets and futuristic play equipment showed the desire to heal old wounds with youthful exuberance and joy. Summer evenings they would take out a projector at the hut by the tennis courts and play outdoor movies. People biking by at dusk would stop and enjoy the close knit community. The pale community loved baseball, basketball and the community bank. The nations troubles seemed not to affect the calm peaceful people.

Many loved President Nixon, many did not. It seemed not to matter.

Bill grew up on Idlewild lane with an older and younger brother. His father worked as an Engineer and held his PhD proudly. He walked to Churchill that day in March having just turned 10 years old. The class assembled and everyone filed to the bus. By the way Bills grandfather is an immigrant from Russia and speaks Russian and English fluently. Therefore his last name reflects his Russian roots. In 1973 the cold war rages on and Bill himself feels America should win. Bill had on a red pullover shirt and a pair of jeans he had a modest weight blue coat with him. The sun shone and the bus lurched off. Pat Fisher knew where the bus would wind up. Pat, a bit of ruffian with a father with a bit of the past tried to keep quiet but as a natural leader

with an attitude shouted his knowledge. The mostly quiet ride led to a place surrounded by barbed wire and looked as if a junk yard dog could find comfort within. Pat proved correct, this place did not resemble anything like a 10 year old Homewood boy could relate to. They had gone from Churchill school in Homewood to Cook County Jail.
